

A tasteful appearance in dress often comes as much from good laundering as from the quality of the clothing. Good laundering requires good soap and Ivory Soap is the best.

The fading of delicate shades is frequently the ruination of an expensive garment. Any color that will stand the free application of water can be washed with Ivery Soup. CONTRIBUTION BY THE PROCESS & GAMBLE CO. CONCINANT

## INDIAN TERRITORY CATTLE LEASES.

but Are Renewable for In definite Periods.

No Change in the Conditions and None Is Contemplated at Present-The Law in the Matter.

Washington, Dec. 31 - From communicaloss received at the capta), it is existent hat men interested in the earth landour h St. Louis and the Settlewest are new r listuried by the reports that all grades causes in the Indian Territory terminate to norrow. Reports to this effect have been streulated freely and have been repeated | a stecial disputches to Chicago and Easts ern papers. The matter is one of event inerisnee not only in the Territory, but in St. Louis and Kansas City. It is said that one firm—the Evans, Buell, Suyder Company has leans on feeding carrie in the indust Territory and elsewhere on the ranges amounting to \$5,000.00. If the cattle were to be driven off suddenty at this watern their value would be lessened and nextrages on them would in consequence be

authoritatively, that there is me ground for auts of cattle burses in the Indian Perry, and none is anticipated at present.
The reports put in circulation no doubt to bused upon missinderstanding of the ward of the action taken by the Interior puriment, under the law, to provide for eattle leases until allotments in severally to the Indians in the five nations have been completed by the Dawes Commission. These leases will not terminate to morrow. A but are renewable indomitting, canditions the will continue as they have been sines April. dis Law Concerning Leases.

The graing beases in this Territory have been, almost exclusively, in the Creek Nation. Some of the other nations passed with ordinances prohibiting such fewer with outsiders, Only "citizen cattle" Con with outsiders. Only "citizen cattle" and be grazed in the Cherokee Nation.

The provision covering leaves in the Five Nations is section 23 of the se-called Curits act of June 25, 1888, as follows:

"Section 23. That all leaves of agricultials of grazing lead belonging to any tribe made after the first day of January, 1898, by the tribe or any incader florred, shall be absolutely volu, and all such grazing leaves made prior to said date shall terminate on January 1, 1992, but this shall be absolutely volu, and all such grazing leaves made prior to said date shall terminate on January 1, 1992, but this shall terminate of January 1, 1992, but this shall terminate of January 1, 1992, but this provided in the province of the imperiod to the place which the pinge which the imperi

lands until the allotments berein provided are made."

Without a careful examination of this 200 tion, it might seem that all bears in the land in Territory, whether grading or again cultural, most terminate not later than Jamary I, 1800. The final clustes, however, permits the making of leases by the follows until such time as allotments to individuals have been completed. This work extend he finished for some like to come. Allotments have not been completed in are of the Five Nations, and as there are upward of the Five Nations, and as there are upward of the finished to allotments must be assertained carefully by the Dawes Commission, the existing the making of leases to cattlemen the interference of the death of Herot in an inches in the freeze some previous from the date of the death of Herot in an arrival of the meantine, the interfer is partners, several months ago, authorized the making of leases to cattlemen them are the making of leases to cattlemen the first of the ware for the death of Herot in an arrival of the making of leases to cattlemen the first of the control of the series of the death of Herot in an arrival of the making of leases to cattlemen the making of leases to cattlemen the making of leases to cattlemen under the

sight. No other clew to the identity of the negroes was found.

A number of atreads was a made last night and the men taken to the haspital for dentification. Tens Valle of No. 418 hesthat street, one of the prisoners, was stentified by the woman of man. He admitted that he had had fromble with the conductor, but denied fifting a shot. Bell lives at No. 31 Seith Channing average, and has a family. It is well liked by the employers.

An official of the road poid has night that here had been numerous complaints from The Republic Nurseus, hen St. und Permayiyania Ave in the indian Territory is having no end of fronthe in arranging his slate of patronage. The Judge has a number of fat places at his disposal, inclinding a circle, of the court, whose fees amount to more than 5,000 a year; several deputy clerks at \$1.50 three commissioners at \$1.50 cach indicans stables at \$2.50 a mouth, making combined annual emoluments of about \$11.00.

There is great pressure for those places and the Brubbicans of the Territory think that the principle of home rule should prevail, from information revelved here, it is hollewed that the new Judge will take make from outside the Territory for the best if not all the places under his constrail. Even this control, the from outside the Territory for the best if not all the places under his constrail. The other appointments probably will be made in the new Judan.
